Mr. Russ Collins
Hughes Circuits
540 S. Pacific Street
San Marcos, CA 92078-4056

Dear Mr. Collins:

RE: Qualified Manufacturers List (QML) Recertification, MIL-PRF-31032B, CAGE Code 1KXU6; CN038129, VQE-13-025730

An on-site audit was performed February 28 through March 1, 2012, of your facilities at 540 S. Pacific Street, San Marcos, CA, to the requirements of MIL-PRF-31032B and your Technical Review Board (TRB) approved Quality Management (QM) Plan.

Compliance with these requirements has been successfully demonstrated. Therefore Hughes Circuits is considered a certified manufacturer eligible to continue to qualify and supply printed boards to the requirements of MIL-PRF-31032B. The effective date of this certification is December 1, 2012. This certification covers the following:

Quality Management Plan: *Appendix A of QM-001 Quality Management System Manual (latest revision), "MIL-PRF-31032B QM Plan Outline".*

Process Flow Documentation Index: *Quality Procedures Index (maintained electronically through the Hughes Circuits' document control system, outlined in QP-01 Control of Documents).*

Process Flow: *MIL-PRF-31032 /1, /2 Process Flow (latest revision).*

This certification gives your TRB the responsibility and flexibility to approve major changes to the MIL-PRF-31032B certified process flow and QM plan with concurrent notification to the qualifying activity (DLA Land and Maritime-VQ), with the following exceptions:

1. Test optimization initiatives must be coordinated with DLA Land and Maritime prior to implementation.
2. Future qualification actions initially must be coordinated with DLA Land and Maritime throughout the qualification process.
